

PRAGUECITYUNIVERSITY

Our interdisciplinary approach reflects workplace dynamics, with business and computing students collaborating on industry-driven projects. Through open teaching and small group seminars, you will exchange ideas, challenge perspectives, and explore your passions—whether you're starting out or advancing your career.

School of Business, Management & Technology

B. Gahir, DBA (Associate Dean)

Programmes

Foundation Diploma in Business
BSc (Hons) Computing
BA (Hons) International Management
BA (Hons) International Finance and Business Accounting
MSc Computing
MSc International Management
MSc Leadership and Strategic Management

Beyond the Classroom

Outside the classroom, our students have the chance to connect and learn from influential business and tech leaders through our Master Speaker Series. Additionally, our membership in key chambers of commerce and professional associations offer students unique opportunities, including invitations to external networking events, business briefings, and professional mentoring. These strong links to industry are the source of real-world project briefs for our students and have led to employment and internship offers.

Financial Accounting & Reporting Class

Career Outcomes

Our graduates have achieved significant success in international corporations and as entrepreneurs, with one growing his start-up into a global leader in cloud-based customer care management. Others have followed an academic pathway earning Ph.D. positions at prestigious institutions in the UK, Europe and the USA.

Our graduates work as Product Managers, Brand Managers, Digital Marketing Directors, Investment Managers, Human Resources Managers, Network Security Consultants, Cybersecurity Analysts, Data Scientists, Software Engineers, Operational Leaders, Senior Java Developers, Tech Leads, Cloud Engineers and Game Developers.
